X. the employer requests personal data (i.e. social security number, bank account information) at the time of application

XI. the employer misrepresents their organization by providing dishonest information or the absence of information

3.0 COMMISSION-BASED OPPORTUNITIES

I. Employers using the Center’s services will offer regular salaries for positions. A draw against future earnings does not constitute a salary. Employers offering commission-based positions may post job listings through the Career Center provided they abide by the following policy:
   a. recruit only for positions which are full-time post-graduate career opportunities
   b. no commission-based internships or part-time jobs for current students will be posted
   c. 100% commission-based opportunities will not be accepted for on campus recruitment events. Salaried, hourly, or internship positions only.
   d. when posting a position under “Rate of Pay or Compensation”, enter “Commission-Only” and in the position description, inform the Career Center and potential applicants of the specific manner in which remuneration is to be determined.

4.0 ALL INTERNSHIP POSITIONS LISTED WITH THE CAREER CENTER MUST: (Please review our Site Supervisor Internship Handbook)

I. include a complete job description detailing duties and learning outcomes

II. specify a Site Supervisor with the appropriate level of expertise who is:
   a. a professional in the field with work experience and/or educational training
   b. genuinely interested in teaching a student about the career
   c. available and willing to spend time supervising and mentoring a student
   d. primarily motivated to benefit the student rather than the organization

III. indicate if the internship will be paid (at or above minimum wage) or unpaid. The US Department of Labor specifies that an internship can be unpaid only if the primary beneficiary of the arrangement is the student. The following seven factors are to be considered as to whether the employer or student is considered the primary beneficiary:
   1. The extent to which the intern and the employer clearly understand that there is no expectation of compensation. Any promise of compensation, express or implied, suggests that the intern is an employee—and vice versa
   2. The extent to which the internship provides training that would be similar to that which would be given in an educational environment, including the clinical and other hands-on training provided by educational institutions
   3. The extent to which the internship is tied to the intern’s formal education program by integrated coursework or the receipt of academic credit
   4. The extent to which the internship accommodates the intern’s academic commitments by corresponding to the academic calendar
   5. The extent to which the internship’s duration is limited to the period in which the internship provides the intern with beneficial learning
   6. The extent to which the intern’s work complements, rather than displaces, the work of paid employees while providing significant educational benefits to the intern
   7. The extent to which the intern and the employer understand that the internship is conducted without entitlement to a paid job at the conclusion of the internship
5.0 THIRD PARTY RECRUITERS MUST:
   I. identify their employer clients to the Career Center. This information will be held in confidence and will not be released to candidates unless authorized by the third-party recruiter. No contact will be made directly with the employer without the third-party recruiter's knowledge.
   II. charge NO Fees to the candidate.
   III. not use, take, download or in any other manner obtain the employer job listing in order to populate their own organization's database of job openings. This means you may not sell, transfer, or in any other manner provide access to job postings to any person or entity outside of your organization, other than to provide information on a perspective job candidate to a client organization that has an actual job opening or has a need for temporary worker.
